

## Thank Our Vets: A Music Video

(*italics*= sung; regular typeface= spoken plainly and smug in that country singer=way)

### Verse 1

*I love america, the country you defend  
Lady liberty's a man's best friend  
Brave and true, you fight for our great land  
You bring me freedom, and this I understand.*

*Well this ain't just any old country song,  
An' I've waited far too long;  
To take a stand-o, for our land-o  
This's a song bout' Amer-'can heroes*

So join in with me now: (pre-chorus beat for the chord shift)

### Chorus

*fuck the troops but thank our vets  
guns and bombs won't protect our pets  
dogs and cats deserve freedom too  
veterinarians are the red white and blue*

### Verse 2

That's right, this is my passion  
*Well this is my dog, and his name is boo,  
And one tiiiime, he aint my shoe;  
But you didn't panic, yeah you helped him through,  
And doctor susie, for that I love you true.*

*But it's time to speak, share an oink or squeek,  
Cuz' when it comes to the military industrial complex, I've got a critique  
Defense budget set at 700 billion dollars  
Would the world be better off if that went to doggy collars?*

### Chorus

### bridge

I thank dog for my life, I fight for wildlife  
Money can't stop al qaede-o, but it can help a vet save fido  
No more offshore drones, give the dogs more bones  
Of the vets thinks not Uncle Sam, he only cares if you served in vietnam

### Chorus (2x?)

Stop these wars in foreign lands, instead express more anal glands?
