

"Hygiene" has been successful. Do you think it would be worth while to see her and see what she has developed into, and also Dr. G.?

As some index about rates, Dr. G. gets \$300 for from 1 o'clock to 330 or 4 every other day in the Neurological Department of the Orthopaedic Hospital. She has had more experience than anyone we are likely to find, but I fear, from what Julia says, is not personally attractive. Dr. S. seems to think she would like to be a candidate, and said that she had asked whether she could come to see me in order to find out more fully about it.

Might it not be worth while to advertise, stating as concisely as possible what is needed, and asking candidates to address applications either to you at the College, or to, say A. B., Victoria Hotel here as you think best? It seems to me rather a pity to decide the matter finally without making sure that there are no more desirable candidates in the field.

Answer by return mail if possible.

Yours,

M. E. Garrett

"Hypnotism" has been successful. Do you think it was  
as worth while to see her and see what she has devel-

oped into, and since Mr. G.?

At some later about, rather, Mr. G. says 2300

for from 1 o'clock to 2:30 on a every other day in the

Neurological Department of the Ophthalmic Hospital.

She has had more experience than anyone we see like-

ly to find, but the what this says, is not

personally expressive. Dr. G. seems to think she would

like to be a nurse, and said that she had asked

whether she could come to see me in order to find out

more fully about it.

Right it not be worth while to advertise, after-

ing an conceals as possible what is needed, and ex-

ing candidates to address applications either to you

as the College, or to Mr. G. (Neurological Hospital) and

and you think they it seems to me rather a pity to

close the matter finally without making sure that there

are no more desirable candidates in the field.

Answer by return mail if possible.
