Woking Seventh Day

My dear Mose

I got home last evening
in the nick of time for meeting Mr. Thomson
in Canonica car but last night rather this morning
for pleasure. Henry was $\frac{1}{2}$ past 7, standing
at 6:15. I find all well - Mrs. Mary with
Edwin & Marnall came to tea - after tea I went
up to Mr. Thomson & found him at table with
the rest. He had been out driving & got some
late. It was the first time he had set at the
table with them - but I thought he looked
tired. Henry has lots of things he brought
home filling tables & chairs so that the par-
lor looks like a bazaar. He came back
with paper & myself bringing & Carrie a set
of oyster forks which he had made for her in
Rome having the seals or devices for the different
Italian cities on the handles. They are very

Metty & us Harry says are not likely to
be duplicated.
