Dear Mother -

Sun 8th

We arrived home about 1 pm on Sat. from Stone Harbor where we had a wonderful two weeks. The weather was perfect and the water as well. All are brown as can be from all the sun we had. Pete picked up some germs before we left & had been running some temp. It still continues and is the stage of a head cold now but it doesn't slow him down much - except the first day he had it.

Thanks for the newspaper clipping & the eclipse. Also thanks then very much for the gift they send to me and also the one to Anne who says she'll try to write them and mention it then herself.

Both Saturday and today have been beautiful - sunny yet cool with a north west breeze. Anne & I played golf late on Saturday after an early supper & enjoyed the sunset as we just got in 9 holes. Today we played with Peter up at St. Martins at the end of the afternoon.

I've wondered what the plans are about taking off to Canada or Nova Scotia with Edith Hooper. So then still planning this? Perhaps other things have come along to change this.

I'm expecting to be leaving for Mexico City a week from today to spend most of the week there on business. When I return we'll plan to leave here & visit with Wendy on the 25th as Camp is out on the 26th. Our plans haven't completely gelled as yet re the rest of the week. We'd love to get to see you in Laurel which is about 150 miles or so from Camp. However the 300 miles of extra driving & time we want to spend with you along with other things we are anxious to plan may mean we won't try it. I guess we shall have to wait and see just when we leave here & what we work out to satisfy the varied interest of the family. Don't expect us. ~~If we did come we'd encamp elsewhere.~~

Thanks for the news of Art of which we are anxious to hear. I finally got off a long letter to him tonight. I must stop other things & write him more often. Glad the visit with the children to family camp came off.

Much love to these and Aunt Anna in
which Anne joins

Ellen
